Fighting COVID-19 - An Appeal

Date: 24.03.2020

Dear Students and Respected Parents,

I sincerely hope and wish that you are all safe and staying at home. Pursuant to the Prime Minister's address and the decision of national lockdown for 21 days, I wish to appeal you to strictly quarantine at your homes. Needless, but let me make it clear to you that the deadlines related to your academics will be taken care of favorably on resuming the academics, and you need not worry about them. While your participation in Google Classroom lectures and other learning activities are well appreciated and it is very satisfying to see you responding so responsibly, please remember to continue the same without causing any risk to your safety. All the learning activities that are possible to be carried out from home without going outside is to be pursued. Always make sure to prioritise your health and safety over your academics.

An exceptional and timely decision of a 21-day lockdown taken by the hon'ble Prime Minister combined with our support by strictly remaining at home will be a remarkable and invaluable contribution to humanity. It would be very nice of us to protect ourselves, our kith and kin, the near and dear ones and ultimately the humanity. Let us not underutilize the life-time opportunity to be the saviors of human life on this planet.

Let us all unite and fight together against COVID-19 by strictly remaining at our homes till 14th April 2020.

Principal

(Dr. Mallikarjunaiah J M)
